

NOW AVAILABLE!

An Attractive Alternative for Dispensing Feminine Hygiene

***From a trusted name in vending:**

FAST-AID
CENTER

When Quality Counts,
the choice is obvious.

Now you can offset restroom expenses while offering better customer service and convenience with a new concept in feminine hygiene dispensing. Feminine Care by Fast-Aid™ offers the same unsurpassed quality of the Fast-Aid™ Center to provide an incredibly durable and customizable dispensing system for a market that has long been ignored.

Don't wait to take advantage of the Feminine Care dispensing benefits that make it the best choice on the market!

Durability

The Feminine Care machine deters and withstands tampering and vandalism through the use of tough 16 and 18 gauge steel construction along with ultra durable baked on powder coat finishes. The structure is designed to render the unattractive metal bands and padlocks needed on other machines unnecessary.

Simplicity

The entire Fast-Aid™ line of dispensing systems is the simplest to operate. With only five moving parts, the Feminine Care machine remains easy to maintain.

Reliability

The all-metal coin mechanisms are noted for longevity and tamper resistance. Maintain reliable vends and security by keying the product and coinage compartments separately.

Efficiency

Not only are Feminine Care machines designed to last for years and provide reliable service, they feature a third product selection. A product of your choice will help to offset a restroom's daily expenditures and offer greater customer satisfaction.

Choice

\$1.00, 75¢, 50¢, 25¢ - You decide what price to charge. Choose which product to use in the third selection from the price sheet. Each Feminine Care machine is set-up by you.

FEMININE CARE

By Fast-Aid™
